EXPERIENCE

Frontend Developer (Senior System Engineer)

Infosys | Pune, India | Aug 2022 - Present

Project-2: HomeDepot

(Mar 2024 - Present)

Environment: ReactJS, GraphQL, Context API, JavaScript, HTML5, CSS3, Tailwind CSS, RTL, Jest, Webpack, GitHub

Responsibilities:

- **Built and maintained scalable, high-performance ReactJS applications** with a strong focus on component-driven architecture and clean state management using Context API.
- **Integrated GraphQL APIs** to efficiently fetch and manage frontend data and reducing over-fetching.
- **Optimized rendering performance using React memoization techniques (React.memo, useMemo, useCallback)**, minimizing unnecessary re-renders.
- **Designed and implemented responsive, accessible UI components** using Tailwind CSS, ensuring consistent design across devices and screen sizes.
- **Utilized GitHub for version control**, maintaining code integrity and ensuring a smooth CI/CD workflow.
- **Wrote unit and component tests** using Jest and React Testing Library (RTL) to prevent UI regressions.
- **Debugged complex UI and performance issues** using Chrome DevTools, resulting in measurable improvements in page load time and runtime performance.

Project-1: Gap Impact

(Aug 2022 - Mar 2024)

Environment: React.js, Redux, JavaScript, CSS3, HTML5, MUI, Node.js, GitHub, Jest, Webpack.

Responsibilities:

- **Built and maintained scalable, reusable React components** using modern JavaScript (ES6+), improving UI consistency and development speed.
- **Identified and resolved UI bugs, performance issues, and rendering problems**, enhancing application stability and user experience.
- **Wrote unit and component tests using Jest**, improving code reliability and reducing regression issues.
- **Managed source code versioning** via Git and GitHub, enabling seamless collaboration and deployment.
- **Developed responsive and accessible user interfaces** using HTML5, CSS3, and Material UI (MUI), ensuring cross-browser compatibility.
