SUMMARY

Frontend Engineer with 4 years of experience building enterprise-scale React applications for high-traffic commerce platforms. Proven track record of improving Core Web Vitals, accessibility, and production reliability through performance optimization, reusable architecture, and disciplined testing practices. Experienced in REST API integrations, CMS-driven development, and cross-functional Agile team collaboration.

SKILLS

- Frontend: React.js, Redux, Redux Toolkit, Context API, React Hooks, Custom Hooks, Next.js, JavaScript (ES6+), HTML5, CSS3, Material UI, Bootstrap, Tailwind CSS.
- Performance & Quality: Web Vitals, Lighthouse, Jest, React Testing Library (RTL), Code Splitting, Lazy Loading, Memoization.
- Build & Tooling: Contentful, Jira, Webpack, Vite, CI/CD, Git, GitHub (<https://github.com/yashwant-mali>).
- Backend: Node.js, Express.js, RESTful APIs.
- Database: MySQL, MongoDB.
- Soft Skills: Agile Development, Problem-Solving, Code Optimization, Debugging, Team Collaboration.

EXPERIENCE

Technology Analyst | Frontend Developer

Infosys | Pune, India | Aug 2022 - Present

Project-2: Home Depot

(Mar 2024 – Present)

Environment: ReactJS, Context API, React Hooks, Custom Hooks, NodeJS, MongoDB, JavaScript, HTML5, CSS3, Tailwind CSS, RTL, Jest, Webpack, Git, GitHub, Jira

- Delivered **pixel-accurate, responsive React experiences** for a high-traffic commerce platform, cutting **production UI defects by 30%** and improving **accessibility from 78 → 95+**.
- Achieved major **Core Web Vitals** gains through **code splitting, lazy loading, bundle reduction, API efficiency**, and AI-assisted development using **GitHub Copilot**; reduced **LCP 4.2s → <2.5s**, raised **Lighthouse to 90+**, and enabled **22–30% SEO growth**.
- Leveraged React Hooks, Context API, and custom hooks to build reusable business logic, reducing code duplication and improving maintainability across multiple modules.
- Built **Contentful-driven pages** with reusable models and components, accelerating publishing velocity by **40%**.
- Led migration of **legacy views to Fusion architecture**, increasing cross-team reuse, **eliminating 25% duplicate UI**, and shrinking new page effort by **30–35%**.
- Partnered with backend, QA, and UX while reinforcing **CI/CD** with unit and integration coverage, maintaining **80%+ tests** and reducing regressions by **40%**.

Project-1: Gap Impact

(Aug 2022 - Mar 2024)

Environment: React.js, Redux, JavaScript, CSS3, HTML5, MUI, Node.js, Git, GitHub, Jest, Webpack, Jira.

- Developed **scalable, reusable React components** using modern JavaScript, improving UI consistency and accelerating feature delivery by **20–25%** across modules.
- Diagnosed and fixed **rendering and stability issues**, reducing recurring UI defects by **30%** and improving overall user experience.
- Expanded **unit coverage with Jest** and improved testability of new features, lowering regression incidents by **25%**.
- Implemented memoization techniques using **React.memo, useMemo, and useCallback** to minimize unnecessary re-renders and **improve application performance**.
- Built **responsive, accessible interfaces** using **HTML5, CSS3, and MUI**, improving **cross-browser reliability** and reducing layout issues in production.

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Microsoft Certified: Azure Fundamentals (AZ-900)

EDUCATION

Savitribai Phule Pune University, Maharashtra | Aug 2019 – May 2022

Bachelor of Engineering - 9.45/10
